SOFT SKILLS

Communication | Creativity | Adaptability | Problem-solving | Collaboration | Attention to Detail | Time Management | Critical Thinking | User-Centered Thinking | Customer Service | Emotional Intelligence | Resilience | Active Listening

WORK EXPERIENCE

Apr 23 - Present

Frontend Developer | Wibuild

- Rebuilt the company website using React framework and integrated GSAP animations, resulting in a modern, aesthetically pleasing and highly interactive online platform.
- Collaborated with cross-functional teams to develop and deploy 7 client websites, ensuring utmost client satisfaction while adhering to established timelines and quality standards.
- Ensured the seamless integration of UI/UX designs across multiple devices, deploying the highest standards of design and functionality.
- Implemented best practices for cross-browser compatibility and optimized website performance for enhanced functionality.
- Actively participated in code reviews, providing valuable insights and continuous improvement initiatives, fostering a culture of excellence and innovation within the development team.

Mar 22 – Oct 23

React/ Lead Developer | Build-It

- Led a team of 6 developers to successfully incorporate new React features into the company's website, enhancing its functionality and user experience.
- Developed a web app on a Hive Blockchain system using React, allowing for efficient state management and dynamic updates.
- Optimized the web application for performance and scalability, resulting in reduced page load time and increased application speed.
- Created a unique and engaging User Interface (UI) and User Experience (UX) for website visitors, resulting in improved user satisfaction and increased conversion rates.

- Collaborated with cross-functional teams to promote the company and ensure alignment between the website's features and overall business goals.

Mar 22 – Apr 23

Front End Developer | OneAlphaNg Logistics

- Built a logistics firm web application, utilizing HTML, CSS, and JavaScript to convert UI/UX designs into code.
- Collaborated with the team lead to research and gather relevant data, leveraging it to design an intuitive user interface that met the specific needs of the logistics industry.
- Built the website from scratch, incorporating all necessary features such as order tracking, shipment management, and user authentication to ensure a seamless user experience for customers and staff.
- Integrated Flutterwave API as the primary payment gateway, enabling secure and convenient transactions for customers.

Jun 22 – Mar 23

Full Stack Developer | Batlan Superstore

- Developed a user-friendly e-commerce website using PHP Laravel, CSS, and jQuery.
- Designed and implemented the admin dashboard, providing easy navigation and efficient management of website content and data.
- Collaborated with the development team and product managers to ensure consistent functionality across the front-end and back-end of the website, resulting in a seamless user experience.
- Integrated Flutterwave API and Bank Transfer option to streamline customer payments.

ADDITIONAL EXPERIENCES

Nov 20 - Present

Full Stack Developer | Freelance

- Created a full hotel booking website from scratch, implementing features such as login, registration, user dashboard, and developed a web administrator, using Laravel and Blade Template.

Jan 16 - Present

Front End Developer | Freelance

- Created multiple landing pages and portfolio websites utilizing HTML, CSS, and JS, with a photography website hosted on Hostinger. Additionally, designed a React-based landing page with Material UI, incorporating a chat widget to boost user engagement.

Nov 22 – Oct 23

Front End Developer Intern | Plus One Technologies

Mar 18 – Sep 18

Front End Web Developer | Hotels.ng

- Developed highly efficient web applications using React, jQuery, Redux, and HTML, resulting in improved user experience and increased website performance.

PROJECTS

Sep 2023

Supertext-react npm Library - [GitHub](#)

- Developed an npm library providing text animation and display components, empowering developers to incorporate engaging animated text into projects effortlessly.

Aug 2021

E-commerce Web Application - [Demo](#)

- Built a responsive e-commerce web application with a user login and registration system using React, Redux, React Router, CSS, and Firebase

Nov 2020

Home/Vacation Rentals Web Application UI - [Demo](#) | [GitHub](#)

- Built a responsive hospitality web application using React, Redux, React Router, CSS, and Firebase

Sep 2020

Netflix UI Web Application - [Demo](#) | [GitHub](#)

- Designed a responsive web application resembling Netflix, utilizing technologies such as React, React Router, CSS, Material UI, Axios, Firebase, and integrating data through the TMDB movie API.

EDUCATION

Aug 2021

Bachelor of Science, Computer Science (B.Sc.) – McPherson University, Nigeria

Relevant Courses: OOP in Java, Compilers, Algorithms, Data Structure, Operating Systems
